PROFILE

I have been a Frontend Developer and Multimedia Design student at KEA for the last year and a half. Here my passion for web development, animations and UI/UX design has increased. Previously, I learned basic programming on my own and I fell in love with the subject, so I decided to change my career path and started my formal education. I am really looking forward to expanding my abilities in these subjects and applying that knowledge.

EDUCATION

Multimedia Design- Frontend Developer

Københavns Erhvervsakademi KEA

2021 – 2023

Accounting and Auditing Engineering

Universidad Polytechnical Salesian

2012 – 2017

WORK EXPERIENCE

Disaromati S. A. (Ecuador)- Accounting Assistant

2009–2015

Working with accounting systems to process the company's information. I know how the UX/UI and the functionality of the systems affects the overall process

Electro Industrial Vinueza - Accounting Administrative *Assistant & Cashier*

2008–2009

Working face to face with customers helped me to develop a service mind, oriented to understand the customer needs.

"AR" Fabián Almeida Torres

Accounting Administrative Assistant

2003–2008

I learned to work in a structured and organized manner. I needed to plan my own work since this company was a startup with an underdeveloped organization.
